Are you happy with your progress from last quarter? Why or why not?

How often do you refer to your class notes when you have trouble with a problem on your weekly packets or when completing quiz corrections?

Look in the assessment section of your binder, what was your score on the open notebook Problem-Solving Quiz?

If you scored below an  $\frac{11}{15}$ , explain why you think this happened. What will you do differently next time?

What are some things you felt you did really well with this quarter?

What are some things you feel you could improve on?

Looking at your response for the previous question, state a **goal for 2<sup>nd</sup> quarter**. Make your goal attainable; meaning you can reach it by putting in a little more hard work and effort.

What are you going to do this quarter to help you reach this goal? What can your teacher do to help you reach your goal?
